## **Educational Satisfaction**

We know that getting a passing grade on a lab or exam is not enough for our students. You want to walk away from your schooling with the confidence that you have the skill set to diagnose and repair a problem. We want the same thing for you. With that said, if after your training is completed, you feel that you do not have the skill level you desire, you may make arrangements to return to attend classes in order to better comprehend a lab or lecture material. That is our Educational Satisfaction Commitment to you for choosing and attending Pennco Tech.

## **Mission Statement**

In the Pennco Tech tradition, we promote educational excellence by encouraging academic and technical curiosity, innovation, and creativity by emphasizing the importance of providing students with hands-on training and the tools to make them resourceful and productive members of the workforce. Through personal attention and a dedicated faculty and staff, our students become leaders and experts in their fields and chosen professions. Our mission is to empower our students to better their lives and to contribute positively to the organizations and communities in which they work and live. We encourage and foster partnerships among the business community and industry leaders. We are passionate and agile in responding to the changing needs of our students, employers, and the communities we serve through the process of ongoing assessment, evaluation, and improvement.

## **CHANGES IN CATALOG INFORMATION AND DESCRIPTIONS**

Changes in the content of this catalog will be made by addendum or publication of a new catalog. No verbal changes or representations to this catalog may be made by any member of Pennco Tech's staff.

Pennco Tech is an Equal Opportunity Trainer.

***Pennco Tech is an accredited institution.***

**Pennco Tech is accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC). ACCSC is recognized by the United States Department of Education as a private, non-profit, independent accrediting agency.**

### **ADDITIONAL APPROVALS**

Pennco Tech prides itself on a long history of earning and maintaining accreditation and licensing through various National, Regional, State, and Local agencies. These include the following:

- Licensed by the Department of Education, Commonwealth of Pennsylvania, State Board of Private Licensed Schools.
- Approved by the Pennsylvania Department of Education to Award the Associate in Specialized Technology Degree to graduates of the:
  - Automotive Technology Program.
- Accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC).
- All programs approved for the training of veterans.
- Listed as an authorized training facility by
  - Pennsylvania Office of Vocational Rehabilitation
  - New Jersey Department of Rehabilitation.
- Listed as an authorized trainer by the Pennsylvania Department of Transportation, Bureau of Traffic Safety, to facilitate the Pennsylvania State Inspection and Emission Control Certification Programs.
- Automotive and Collision Repair instructors are generally certified by the National Institute for Automotive Service Excellence (ASE) in their individual specialties as well as in other technical areas.
- Listed as an eligible institution under the Federal Direct Student Loan programs (Direct Stafford and Direct PLUS).
- All students are also eligible and may apply for:
  - Federal PELL Grants
  - Federal Supplemental Educational Opportunity Grants
  - Federal Direct Loans through the U.S. Department of Education
  - Sallie Mae Private Loan Program.
- Pennsylvania residents are eligible to apply for the State Grant administered by the Pennsylvania Higher Education Assistance Agency.

# HISTORY OF OUR SCHOOL

In 1961, The School of Electronics was founded in Philadelphia, PA by the Philco Corporation. In 1966, the Ford Motor Company, through its subsidiary, Philco-Ford, established the School of Automotive Technology, also in Philadelphia. Philco-Ford was granted our first accreditation by NATTS (now the Accrediting Commission of Career Schools and Colleges, ACCSC) on March 30, 1969. Pennco Tech has maintained continuous accreditation since that date.

In 1973 these two schools were acquired by Pennco Institutes, Inc., a Pennsylvania Corporation. In 1975 the School of Electronics and the School of Automotive Technology moved to Bristol, Pennsylvania, and consolidated as Pennco Tech.

In 1978, a School of Automotive Body Repair was established in Bristol and an additional Pennco Tech facility was opened in Pennsauken, New Jersey, consisting of a School of Automotive Technology and a School of Automotive Body Repair.

- In December of 1979 the Pennsauken Campus gained accreditation from ACCSC.
- In 1984, the Pennsauken Campus was relocated to a larger facility in Blackwood, New Jersey.
- In 2001 our Pharmacy Technician Program was added.
- In December 2003 the Electrician Program was added.
- In August 2006 Bristol added our Plumbing and Heating Technology Program.
- Welding Program added to the school program offering March 2022.
- As we enter 2023 Pennco Tech will celebrate our 50<sup>th</sup> year in operation.
- Automotive Technology Day Diploma program added October 2023.

## SCHOOL PHILOSOPHY/EDUCATIONAL OBJECTIVES

The development of an individual by formal education and training leads to a more fruitful life for that individual, promotes morale and intelligence, conserves human resources and efforts, aids in the production of wealth, and contributes to economic stability and progress.

To aid the student in this development, Pennco Tech:

- Concerns itself with the student as a total human being who, as a graduate, will seek employment based on their personality, experiences, and aspirations as well as technical training.
- Provides training which fosters individual technical proficiency.
- Engages the student in active participation in the learning process.
- Encourages creativity, experimentation, questioning and evaluation.
- Strives to provide pleasant associations with success rather than frustrating experience with failures.
- Provides experiences through which the student can develop proper attitudes and adaptability toward meeting his/her obligations in an ordered society as well as in his/her work environment.

From a practical point of view this philosophy indicates that, since learning takes place within the student, the school is dedicated to helping the student learn. Further, since the school is sensitive to the student's ultimate objective, employment, and employer's needs, learning involves not only technical information, but the other qualities and attitudes that develop the total human being. Thus, the student is made aware of the need for self-discipline, neat appearance, clear and concise writing, confident speech, cooperation, honesty, and the many other characteristics that the employer finds desirable in a good employee.

## **NON-DISCRIMINATION POLICY**

Pennco Tech adheres to all federal and state civil rights laws and regulations prohibiting discrimination in private institutions of higher education. Pennco Tech does not discriminate against any employee, applicant for employment, student, or applicant for admission on the basis of race, creed, color, religion, disability, veteran status, gender, age, marital status, sex, sexual orientation, gender identity or expression, pregnancy, genetic information, citizenship, ethnic or national origin, or any other protected category under applicable local, state, or federal law, including protections for those opposing discrimination or participating in any resolution process on campus.

Effective 8/1/24 the updated Title IX Sexual Harassment/Non-Discrimination Policy will be on Pennco tech website ([www.penncotech.edu](http://www.penncotech.edu))

## **LOCATION/FACILITIES**

Pennco Tech is conveniently located in Bristol Township near the Pennsylvania side of the Burlington Bristol Bridge. It is easily accessible from the I-95/Route 413 Interchange; Route 13; the Pennsylvania Turnpike; and Route 130 in New Jersey.

Training is conducted within three adjacent buildings, totaling 102,000-sq. ft. of floor space, situated on more than seven acres of land. A full-service cafeteria is also provided for the students and is located in Building #2. Free parking is available for all students.

Limited “on campus” housing is available. The school also makes information available to students regarding living accommodations in private homes and apartments in the vicinity; however, it cannot assume any responsibility for the safety or health of those residing in private homes, rooms, or apartments.

Each classroom and laboratory is equipped with the appropriate test and demonstration equipment to adequately train students in their chosen profession. All special tools and test equipment are supplied by Pennco Tech during the student’s training. . Lecture and/or lab class size shall not exceed a 30 to 1 ratio. Automotive students are permitted to work on their own cars and cars belonging to members of their immediate family when approved by the instructor and such work coincides with scheduled training. Practical experience is gained, therefore in working on products of various makes and models of automobiles. Student work on vehicles during non-school hours is prohibited without permission of instructor and School Director.

### **Services for the physically impaired**

Services for individuals with impairments protected under the Americans with Disabilities Act (ADA)

- \* Designated parking and ramp access to all school buildings
- \* Restrooms to accommodate wheelchairs
- \* Other options are available to meet specific needs and are treated on an individual basis; please see the Pennco Tech ADA Students with Disabilities Policy on our webpage at [www.penncotech.edu](http://www.penncotech.edu)

### **EMERGENCY PREPAREDNESS INFORMATION**

Pennco Tech’s Emergency Preparedness Plan can be found on the student portal at [www.pennco.edu](http://www.pennco.edu) or our website at [www.penncotech.edu](http://www.penncotech.edu).

## ADMISSION REQUIREMENTS AND PROCEDURES

All interested applicants must apply on campus. To apply as a student at Pennco Tech, you must complete the following:

- Be beyond the age of compulsory school attendance in the State of Pennsylvania and/or have obtained a high school diploma or a GED.
- No applicant may start training at Pennco Tech if they are currently attending high school.
- Be able to perform the job duties of your chosen career as outlined in the U.S. Department of Labor publication, Directory of Occupational Titles.
- Participate in a personal on-site interview with an Admissions Representative.
- Government-issued photo Identification
- \$25.00 non-refundable application fee.
  - This fee is non-refundable and does not guarantee admission into Pennco Tech
- Non-United States citizens/Foreign students may need to provide further documentation
- Provide one of the following as proof of education:
  - A state-endorsed high school diploma or equivalent (GED).
  - Ability to Benefit (ATB) with passing scores in Verbal = 200 and Quantitative = 210, and having established eligibility in a Title IV institution before July 1, 2012. \*
  - An associate's degree or higher from an accredited institution, proven by submission of an official transcript.
- Home school applicant - Admissions requirement policy: **Must meet one of the following:**
  1. Home school students residing in a state that has a state approved home school certifying agency must possess the following; A copy of the home school diploma with corresponding transcripts awarded by the state.
  2. If the students home state does not have a state approved home-schooling agency, they must provide proof of passing a high school equivalency GED test.
  3. A copy of an associate's degree or higher, awarded to applicant from a degree granting institution

\*Approved homeschooling diploma-granting organizations are listed on pa.gov website: <https://www.pa.gov/en/agencies/education/programs-and-services/instruction/elementary-and-secondary-education/home-education-and-privatetutoring.html#accordion-dec992ffaa-item-6035de2ff2>

**\*\*\*Please note visas B,C,D,F,M are automatically not eligible to apply for admissions\*\*\***

The School Director may require a prospective student to submit additional documents or information as deemed necessary for acceptance into Pennco Tech. The School Administration will act promptly upon acceptance applications and notify the prospective student in writing of their acceptance.

\*ATB students may be required to re-test using a U.S. Department of Education-approved examination of the ATB based on a transcript review of their prior educational experience

### TRANSFER OF CLOCK HOURS/CREDITS/ADVANCED STANDING

Pennco Tech may accept transfer clock hours or credits for courses completed at another institution; however, 50% or more of the program's clock hours must be completed at our school. A student wishing to transfer credit must complete the transfer of clock hour/credit form and submit the transfer request form before the start of the program. An official transcript is required directly from the college attended. Pennco Tech will review course descriptions and any transcripts received by the student to arrive at a final decision.

Courses taken at another institution must have been passed with a “C” (2.0) or better and the former institution must be accredited by an agency recognized by either the U.S. Department of Education or the Council for Higher Education Accreditation (CHEA). If clock hour credit is awarded, the program length will be adjusted for that student, and a pro-rated tuition reduction will be made. The corresponding course will be listed on the student's transcript with a grade of "TC". Transfer credit courses are not counted in the Cumulative GPA.

Acceptance of transfer credit is at the sole discretion of Pennco Tech. In addition, Pennco Tech does not have articulation agreements and does not give credit for experiential learning.

### **TRANSFER OF HOURS/CREDITS**

Decisions concerning the transferability/acceptance of Pennco Tech credits and or hours by any other institution are made at the sole discretion of the receiving institution. No representation is made concerning the transferability of any credits/hours earned at Pennco Tech to any other institution.

## ***EDUCATIONAL REQUIREMENTS AND PROCEDURES***

### **NATURE OF PROGRAMS**

All programs of instruction are designed with expected learning outcomes. Through theory, practice and lab assessment the student will have direct experience with their career program of choice.

Pennco Tech is a firm believer that everyone can go on to higher learning. We also feel that there is a school for everyone and that in some cases our educational delivery model is inappropriate for some learners. Programs at Pennco Tech are not designed to be comprehensive transition and postsecondary (CTP) programs for students with intellectual disabilities.

**Pennco Tech’s use of Distance Education:** Pennco Tech does not use Distance Education, or online learning, as a primary delivery method for any of its course content in any Program/Course offered by the school. We will ONLY use online training for your lecture material in issues of inclement weather and/or pandemic issues as approved by the State off PA and ACCSC.

Pennco Tech uses Microsoft TEAMS as its delivery system for online classes when used. If you do not own a computer that has a camera and microphone, the Education Department will offer you the opportunity to sign out a school-owned laptop and your Instructor will train your class on how to use Microsoft TEAMS for those times it may be needed as discussed above.

All other school services to students will be offered in-person on-campus and never by way of online Distance Educational services.

### **Occupational Safety and Health Administration - OSHA**

The Occupational Safety and Health Administration (OSHA) requires safe standards for working men and women, and provides training and education to these workers to ensure a safe environment. Pennco Tech is one of only a few official OSHA Test sites offering a Certified OSHA Trainer through the OSHA organization. The OSHA 10 and 30 certification courses for “Construction Safety and Health” is offered to the Electrician, HVAC&R, and Plumbing students on the Bristol Campus. The students have the opportunity to graduate with their OSHA 10 or OSHA 30 certification card depending on their future aspirations. The OSHA 10-hour safety program consists of training for entry level workers promoting the most updated health and safety regulations. The OSHA 30-hour course is more appropriate for supervisors or workers with some safety responsibility. Through this training, OSHA trained instructors help to ensure that workers are more knowledgeable about workplace hazards in the construction field. For additional information on course schedules and costs, please reach out to our Director of Education.

## TERM SCHEDULING/SEQUENCE

The sequence in which a student progresses through the program is determined by the Education Department and may not coincide with the sequence used in the catalog.

## CLASS HOURS

Each "clock hour" contains at least 50 minutes of instruction. Day classes are in session Monday through Thursday from 7:30 a.m. to 3:00 p.m., Fridays will start at 7:30 a.m. and end at 2:00 p.m. and occasionally end at 3:00 p.m. for an average of 34 hours per week. Evening sessions are on Monday, Wednesday and Thursday from 6:00 p.m. to 10:00 p.m.

## STUDENT SATISFACTORY PROGRESS

For ALL programs offered at Pennco Tech, students are required to attain a minimal cumulative grade point average of 2.0 in order to be eligible for graduation.

## GRADING SYSTEM and ATTENDANCE RECORDS

All records of attendance and final Term/Program grades are maintained by the Registrar's Office electronically. Students can view this information on their student portal. If needed an Official Transcript can be requested from the Registrar by going to the Bursar's Office window in Building 3. Upon graduation, all students are provided an Official Transcript and a Program Graduation Document.

### GRADING SYSTEM

90-100%	4.0
80-89%	3.0
70-79%	2.0
60-69%	1.0
0-59%	FAILURE

## REQUIRED COMPLETION RATE

CLOCK HOURS PER PROGRAM	WEEKS	MAX WEEKS TO COMPLETE PROGRAM
1800	52	78
1350	40	60
1200	35	53
1200 (EVENING)	100	150
960	28	42
960 (EVENING)	80	120
900	26	39
900 (EVENING)	75	113
600	17	26
600 (EVENING)	50	75

## ACADEMIC PROBATION

Any student who fails the first Term of his or her program (below 60%) must repeat that Term, without financial aid, before taking any other individual Term in their Program. If a student fails any subsequent Term in their Program they will be required to retake that Term and receive a passing grade of 60% or higher before they can be considered eligible for graduation.

At the end of each Term, the student's cumulative grade average will be determined. Students who do not achieve a cumulative grade average of 70% or higher at the end of each Term will be placed on *Academic Probation* for the following Term. If, at the end of the probation period, the student's cumulative grade average remains below 70%, the student may be required to repeat the Term or dismissed.

## **REPEAT POLICY**

If a student earns a final term grade **below 60%**, the student **MUST** repeat the term. A student may repeat an entire term only one time. If a student is *required* to or *requests* to repeat a term, the second grade and attendance record will substitute for the first grade. *Please note that repeating a term may alter a student's financial aid packaging.*

## **INCOMPLETE ACADEMIC RECORD**

A final grade for a term of "I" or Incomplete will be utilized at the discretion of the Education Department. The "I" will be converted to a zero if not made up within the time frame determined by the Education Department

## **OFFICIAL WITHDRAWAL POLICY & PROCEDURE**

In order to officially withdraw from Pennco Tech, a student first must have a meeting with the Director of Student Services, Director of Education, Evening Education Supervisor or School Director to discuss the reason for withdrawing. Additionally, the student must complete and sign a letter of withdraw. The student will then be directed to the Financial Aid department for an exit interview.

## **RE-ENTRY AND CHANGE OF PROGRAM POLICY**

Students who are terminated by the school for academic, disciplinary, or attendance reasons as set forth by school policy may request re-entry after one complete term from the date of termination. This request will be reviewed by the Education Department and submitted to the School Director for approval. This policy does not apply to voluntary withdrawals. A voluntary withdrawal may request re-entry at any feasible date in the program.

Students are encouraged to remain in the program in which they originally enrolled until graduation. The school realizes that situations may arise that warrant a change in the student's educational objective by entering a new program. Such changes must be submitted at least 5 business days prior to the end of the term/effective date, in writing to the School Director, stating the reason(s) for the change. The Director will evaluate the request based on the reason(s) stated, grades, attendance, feasibility, and Title IV regulations, if applicable.

If approved, the grades for those terms credited to the new program will be considered in the student's grade point average. However, for the purposes of determining whether the student is completing the program in the maximum allowable time frame, the time spent in the previous program will not be considered.

Students will be allowed only one Change of Program. A fee may be charged depending on the selected program change. Students who have been dismissed or voluntarily withdrawn prior to the end of a term may be allowed to re-enter at the point at which they stopped attending. Prior to the point of re-entry, students are expected to attend the portions of the term they have already attended and actively audit the classes. In lieu of tuition, students will be charged a \$25 fee for actively auditing the class. Students re-entering after 180 days will be required to retake their entire Term if they left prior to completing the Term. These students will be required to pay for the entire Term a second time.

# **GRADUATION REQUIREMENTS**

The Graduation Requirements are designed to provide all students with program specific learning outcomes that will support them upon entry into their chosen career field.

## **Certificate of Completion (Professional Development of an individual Term)**

To be eligible for a Certificate of Completion, the student must:

- a. Complete Term requirements with a minimum average grade of 70%;
- b. Attend 100% of all scheduled classroom hours (made up time count as attending class);
- c. Satisfy all financial obligations to Pennco Tech
- d. Complete Exit Counseling with SLDC or on Studentaid.gov.

## **Diploma**

To be eligible for a Diploma the student must:

- a. Receive a passing grade, 60% or higher, in each Term of their program
- b. Complete program requirements with a minimum average grade of 70%
- c. Attend 100% of all scheduled classroom hours (made up time count as attending class);
- d. Satisfy all financial obligations to Pennco Tech; and
- e. Complete Exit Counseling with SLDC or on Studentaid.gov.

## **Associate in Specialized Technology Degree**

To be eligible for an Associate in Specialized Technology Degree, the student must:

- a. Possess a High School Diploma or GED
- b. Be enrolled in a Degree Program
- c. Receive a passing grade, 60% or higher, in each Term of the program
- d. Complete program requirements with a minimum GPA of 70%
- e. Attend 100% of the total clock hours of the program. (made up time count as attending class)
- f. Satisfy all financial obligations to Pennco Tech; and
- g. Complete Exit Counseling with SLDC or on Studentaid.gov.

# ***ATTENDANCE POLICY***

## **TARDINESS**

Students are expected to be in their assigned classroom/lab at 7:30 am for day students and 6:00pm for evening students. Being late to class is disruptive to the educational process at Pennco Tech. Any student not physically present for the start of, or during, a scheduled class period will be considered tardy and their time out of class will be recorded.

## **ATTENDANCE PROBATION**

Students will be advised by a member of the education team and receive written notification of their attendance probationary status after receiving their 1st attendance advisory.

## **TEACH OUT PLAN**

Pennco Tech is committed to complying with all State and Accrediting Commission of Career Schools and Colleges (ACCSC) policies regarding Teach-Out Plans and Agreements. In the event of program discontinuation, school closure, or any circumstance requiring a teach-out

## **PENNCO TECH HONORS CONSTITUTION DAY**

At Pennco Tech, we proudly recognize Constitution Day by educating our students about the significance of the U.S. Constitution. To commemorate this day, we provide students with an informative handout and an educational assignment.

## **NO EXCUSED TIME POLICY**

Changes to Excused Time Policy

Affects both New Students and Re-Entry Students

No Excused Time policy is effective as of July 1, 2024

This notice outlines the updated policy for students' excused time. It applies to students starting or re-entering (after 180 days) on or after July 01, 2024, which eliminates the provision for excused absences.

Note, that students re-entering within 180 days and before Dec 31, 2024, will not be subject to the new policy and will remain subject to the old, excused time policy below, which includes provisions for excused absences.

## **The old policy states:**

### **Excused Absence**

Pennco Tech is a Clock Hour institution with extremely focused curriculums and therefore, attendance is a major factor in student success. Absences may be excused by the Education Department if good cause exists and the student documents the reason for the absence by sending a request through the Student Portal. (Excused Absences cannot exceed 10% of a Financial Aid payment period).

*Excused Absences: Students are allowed a specified number of excused absences for valid reasons such as medical issues, family emergencies, and other circumstances as approved by the administration.*

*Make-Up Work: Students are responsible for completing any missed assignments or assessments within a reasonable period as determined by the faculty.*

## **The new policy effective July 01, 2024, states:**

### **No Excused Time**

*No Excused Absences: Students will not be granted any excused time for absences. Students must attend or make up all clock hours for their program of study to graduate from the program.*

*Make-Up Hours: Students are responsible for making up missed hours, and completing any missed assignments or assessments within a reasonable period as determined by the faculty.*

## **Implementation and Support**

The new policy fosters a disciplined and consistent academic environment, ensuring all students benefit from their educational journey.

The institution is committed to supporting students through this transition. Student Services are available to provide guidance and resources to help students adapt to the new policy. Students are encouraged to seek assistance proactively to address any potential issues that may affect their attendance and should contact the administration office with any questions or concerns regarding this policy.

## **MAKEUP WORK/SEAT TIME**

When a student is absent from class, the student will be given a make-up assignment (**at no additional charge**) relevant to what he/she missed in school that day. Make-up work must be supervised by an instructor/education team and completed during the following times:

- M/W/Th 3:00-10:00 p.m. in the library for day students, Tuesday 3 – 4 pm
- M/W/Th 7:00a.m - 6: 00p.m in the library for eve students, Tuesday & Friday 7am – 3 pm
- Furthermore, from an academic standpoint, make-up work/seat time is mandatory for incomplete or unsatisfactory lab assessment grades. The make-up work aims to advance the student's ability to achieve student learning outcomes associated with the time absent. All absences are counted against a student's academic record.

## ***CONSECUTIVE ABSENCE & UNOFFICIAL WITHDRAW POLICY***

Pennco Tech is committed to educating, preparing, and placing students into qualified and well-paying employment. This training includes conveying the expectations of professionalism to our students that will enable them to succeed

in the workplace after completing their education. Employers do not tolerate excessive absenteeism, unexcused absences, and extended absences without personal contact, and neither does Pennco Tech.

For example, a student, day or evening, fails to attend class and communicate with the Education Team because they do not attend class for fourteen (14) consecutive calendar days. In that case, they will be dismissed from their program. Unofficial withdrawals can also occur when the student code of conduct and attendance policy are violated.

### **LEAVE OF ABSENCE**

Pennco Tech's formal LOA Policy is that we DO NOT allow students to take an approved leave of absence. If a student must leave school for an extended period of time, 14 or more consecutive days, the student must meet with a member of the Education Office and request to withdraw from school in writing. Failure to do this will result in the student being unofficially withdrawn by the school on day 14 of their absence.

## ***STUDENT CONDUCT AND TERMINATION***

Students may receive verbal or written notifications from an educational staff member in areas such as attendance, behavior, adherence to school policy and dress code, and academics. Students will face disciplinary action for any of the following violations including but not limited to:

- Dishonesty, including cheating, plagiarism, knowingly furnishing false information to the institution, forgery, and alteration or use of institutional documents or identification with intent to defraud.
- Intentional disruption or obstruction of instruction, research, administration, disciplinary proceedings, public meetings, programs, or other school activities.
- Any abuse of any person on school premises or at functions sponsored or supervised by the school.
- Theft or damage to the school premises or damage to the property of a member of the school community on the school premises.
- Failure to comply with directions of institutional officials acting in the performance of their duties.
- Violation of the law on school premises in a way that affects the school community's pursuit of its proper educational objectives. This includes but is not limited to, the use of alcoholic beverages and/or controlled dangerous substances on school premises.
- Violation of federal copyright laws and unauthorized peer-to-peer file sharing. See also the Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws.
- Jeopardizing the safety or well-being of others.
- Violation of the Pennco Tech's policy on Possession of weapons ( see page 60 and 61)
- Disrespect towards the school, staff members, or other students.
- Any occurrence that the Director deems detrimental to the successful operation of the school.
- Failing to maintain satisfactory academic progress or absenteeism over 20% of all scheduled classroom hours (including make-up/seat time).

### ***Violations of the Student Code of Conduct & Attendance Policy***

Purpose: The purpose of this policy is to outline the procedures for issuing warnings and advisories for school violations, and to define the consequences for repeated violations, ultimately leading to termination from the program.

Scope: This policy applies to all students enrolled in the program.

#### Definitions

- **Warning:** A written notification issued to a student for a school violation.
  - **Examples (but not limited to):** Class disruption, Class preparedness, Campus automotive violations, Unattended time
    - Unattended time warning is issued to any student that accumulates 3 attendance violation or an increment of time less than a full day
    - Attendance violations can be cleared if the student completes the necessary make- up time with in 10 days of the unattended time

- Attendance Advisory- written notification issued to a student who accumulates 3 attendance warnings
- Term Percentage Advisory – written notification issued to students who have more than 20% of unattended time in a term.
- Code of Conduct Violation Advisory-A written notification issued to a student for:
  - Examples (but not limited to): Cheating, use of abusive language, verbal/physical abuse, harming the safety of others, disrespect to school or staff, and smoking/vaping indoors, speeding, and accumulating three warnings
- Four advisories of any kind will result in termination from the program.
- This type of advisory can be retracted during the Advisory Evaluation Process.
  - Examples (but not limited to): Coming late, leaving early, missing class, all unattended time, absence for an entire day.

### Policy

#### 1. Issuing Warnings

- A warning will be issued for any violation of school rules or policies.
- The warning will be documented and provided to the student in writing.

#### 2. Accumulation of Warnings

- A student who receives three warnings will be issued one advisory.
- Each warning remains on the student's record and contributes to the accumulation of advisories.

#### 3. Absolving or Clearing Warnings

- Code of Conduct violations may not be cleared
- Attendance violations can be cleared if a student makes up the missed or absent time within 10 days of the missed or absent time.

#### 4. Issuing Advisories

- An advisory is issued when a student accumulates three warnings in any category of violation.
- The advisory will be documented and provided to the student in writing or via email.
- The advisory will outline the consequences of further violations, including potential termination from the program.

#### 5. Accumulation of Advisories and Termination

- A student who receives four advisories will be terminated from the program.

#### 6. Record Keeping

- All warnings and advisories will be maintained in the student's file.
- Records of warnings and advisories will be kept confidential and only accessible to authorized personnel.

#### 7. Communication

- Policy will be included in the catalog
- The Code of Conduct & Attendance violation policy will be reviewed during orientation.

### **Procedure**

#### 1. Termination Process

- After the third advisory, the student will be notified of the severity with a notice in writing via email/text/written.
- Upon reaching the fourth advisory, the student will be terminated from the program.
- Student may appeal the decision by petitioning the school director in writing within 7 days of the termination.
- The decision of the School Director shall be final.

#### Responsibilities

- Students: To comply with all school rules and policies and acknowledge warnings and advisories.
- School Administration: To issue and document warnings and advisories accurately and fairly, and to enforce the termination policy when necessary.

#### Review and Amendment

- This policy will be reviewed and may be amended as necessary to ensure compliance and effectiveness

# ***SATISFACTORY ACADEMIC PROGRESS (SAP) Policy for Financial Aid***

Federal law and regulations require that all students receiving financial aid maintain Satisfactory Academic Progress (SAP) according to both qualitative and quantitative measures. The following policy represents the standards adopted by Pennco Tech’s Financial Aid Office and applies to all students receiving financial aid, including Federal Direct Stafford Student Loans.

## **Conditions for meeting Satisfactory Academic Progress Policy**

Students must meet all components associated with Satisfactory Academic Progress. Students must maintain a grade point average of at least 70% (Qualitative Measure), A Pace of at least 66.66% (scheduled Clock Hours/weeks Completed for the Payment Period (Quantitative), and Maximum Timeframe (completing the program within 150% of the established program length as it relates to calendar time)). Students fail the maximum timeframe component when it becomes mathematically impossible to complete the program within 150% of the published program calendar length timeframe. The Financial Aid Office will notify students via written letter format regarding their SAP status when failing one or more of the aforementioned SAP components. Pennco Tech does not have an appealing process to assist students in regaining Title IV eligibility after failing Maximum Timeframe Standards. Students may consult the Education Department to determine the necessary steps required to complete their academic program.

Students are required to complete 66.66% of the hours/weeks within a given payment period to maintain their required pace. Students will be checked for both completed hours and weeks as it pertains to SAP. (\* Although a student may be making Satisfactory Academic Progress, the student may not be eligible to receive a subsequent disbursement until the total number of hours and weeks are completed for the previous payment period. For a complete description regarding subsequent disbursements, please see the disbursement section of this manual).

### **GRADING SYSTEM**

90-100%	4.0
80-89%	3.0
70-79%	2.0
60-69%	1.0
0-59%	FAILURE

### **REQUIRED COMPLETION RATE**

CLOCK HOURS PER PROGRAM	WEEKS	MAX WEEKS TO COMPLETE PROGRAM
1350	40	60
1200	35	53
1200 (EVENING)	100	150
960	28	42
960 (EVENING)	80	120
900	26	39
900 (EVENING)	75	113
600	17	26
600 (EVENING)	50	75

While a student's Maximum Timeframe is calculated based on the number of weeks it takes the student to complete the program, the student is not eligible to receive additional financial aid funds for more hours than required for the program. With the exception of a re-enter student who enters Pennco Tech after 180 days from separating from the institution the Financial Aid Office cannot pay funds to a student for repeated course hours.

### **Pace**

Pennco Tech evaluates pace as the students attended time compared to that which is scheduled. If the scheduled hours have elapsed, regardless of whether or not the student has attended them, the student will be reviewed for SAP as noted below. Students who repeat a previously completed course will have the amount of time that it takes to complete the repeated term factored into their Maximum Timeframe standing. Students must be mindful of the number of repeated courses included in their current program as this can affect whether or not the student is able to complete the program on time.

### **Example of Pace**

At 450 scheduled hours the student completed 300

hours  $300/450 = 66.66\%$

Expressed in Calendar time

$8.66 \text{ weeks}/13 \text{ weeks} = 66.66\%$  (Both items checked according to Maximum Timeframe)

**\*Next SAP review is at 900 scheduled hours (if the student is in an academic program that is longer than one academic year)**

### **Financial Aid Warning**

In order for students in a clock-hour program to receive financial aid, they must maintain Satisfactory Academic Progress toward completion of their degree or certificate. Satisfactory progress is evaluated at the end of each scheduled payment period. If satisfactory progress is not achieved at the end of the scheduled payment period, students will automatically be placed on **Financial Aid Warning**.

At the end of each payment period the student's cumulative grade point average will be determined as well as the students' pace of completion. Students who do not achieve a cumulative grade point average of 70% or a Pace of Completion of 66.66% at the end of the payment period will be placed on Financial Aid Warning for one subsequent payment period. During this warning period, the student will receive any financial aid funds due to him. If the cumulative grade point average is less than 70% or the pace of completion is less than 66.66% after the **Financial Aid Warning** payment period, the student's financial aid will be terminated. If the student satisfactorily completes the Financial Aid Warning period based on the standards, the student remains eligible for future financial aid funds.

Pennco Tech's Financial Aid Office does not have an appealing process for failing Satisfactory Academic Progress. Students not making SAP for financial aid programs will be required to pay for any additional courses from their own resources. If the student achieves SAP on his/her own, then the student regains eligibility for ALL financial aid programs. Students must visit the Financial Aid Office to inquire about their Satisfactory Academic Progress status and confirm if the successful completion of a course or courses has enabled them to regain Title IV eligibility; breaks in enrollment or paying for additional coursework does not alone assist the student in regaining Title IV eligibility.

### **Incompletes and Satisfactory Academic Progress**

Students who receive an incomplete "I" for any course that is included in their current program will have the incomplete averaged into their cumulative GPA standard. The "I" will affect the student's GPA standing similar to the effect of receiving a zero for the course. Hours achieved from the grade of Incomplete are counted in the student's attempted hours and completed. Students are advised to visit the Education Department to determine how to convert the incomplete grade. Students must notify the Financial Aid Office when a grade of incomplete has been changed. The Financial Aid Office will use the new information to recheck Satisfactory Academic Progress (SAP) for the student and update the student regarding their new SAP status via written notification.

## **Satisfactory Academic Progress Review for Conflicting/New Information**

In all cases the Financial Aid Office must recheck Satisfactory Academic Progress when new information has been received or previous information has been changed. The Financial Aid office will contact the student in written letter format to inform the student of any current or changed information regarding the student's SAP status due to any updates affecting the student's academic record. Students who are unsure of their academic standing in their program must contact the Education Department to resolve any discrepancies or issues.

## **Transfer Hours and Satisfactory Academic Progress**

Only transfer credits that count toward the student's current program are counted (as both attempted and completed hours). Students who receive credit for transfer hours in their current program are not eligible to receive financial aid funds for the course that those transfer hours have satisfied. The student is not eligible to be paid additional financial aid funds or receive additional time for the already completed course as it relates to Maximum Timeframe standards.

## **Return of Title IV Funds**

Pennco Tech is required by Federal statute to recalculate Federal financial aid eligibility for students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term. The Federal Title IV financial aid programs must be recalculated in these situations:

A. If a student leaves the institution prior to completing 60% of a payment period or term, the financial aid office recalculates eligibility for Title IV funds. Recalculation is based on the percentage of earned aid using the following Federal Return of Title IV funds formula:

**Percentage of payment period or term completed = the number of days completed up to the withdrawal date divided by the total days in the payment period or term** (Any break of five days or more is not counted as part of the days in the term.) This percentage is also the percentage of earned aid.

B. Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

**Aid to be returned = (100% of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total amount of aid that could have been disbursed during the payment period or term**

If a student earned less aid than was disbursed, the institution would be required to return a portion of the funds and the student would be required to return a portion of the funds. Keep in mind that when Title IV funds are returned, the student borrower may owe a debit balance to the institution. If a student earned more aid than was disbursed to him/her, the institution would owe the student a post-withdrawal disbursement which must be paid within 120 days of the student's withdrawal.

The institution must return the amount of Title IV funds for which it is responsible no later than 30 days after the date of the determination of the date of the student's withdrawal.

## **Refunds are returned in the following order:**

- Federal Unsubsidized Direct Loan
- Federal Subsidized Direct Stafford Loan
- Federal Direct Parent Plus Loan
- Federal Pell Grant
- Federal Supplemental Opportunity Grant

## **Enforcement Action - Judgment**

If a school faces an adverse action from its accrediting body or regulatory agencies, it is possible that its Title IV eligibility (federal student aid funding) could be suspended or revoked.

## ***Notice of Compliance with TITLE IX*** **Of the Education Amendments of 1972**

The following Title IX Sexual Harassment/Discrimination Response Policy (the “Policy”) outlines Pennco Tech’s efforts to comply with Title IX of the Education Amendments of 1972, as amended (“Title IX”), which prohibits discrimination (including sexual harassment and sexual violence) based on sex in Pennco Tech’s educational “Programs and Activities,” as such term is defined below, as well as retaliation for asserting or otherwise participating in claims of sex discrimination.

Pennco Tech’s Executive Director of Human Resources/Title IX Coordinator coordinates Pennco Tech’s compliance with Title IX and other applicable laws prohibiting sex and gender-based harassment, discrimination, and retaliation. Each individual is available to any student and employee, including faculty and student workers, current and prospective students and employees, who may seek additional information, or support, or wish to file a report or complaint related to prohibited conduct under this Policy.

**For New Jersey:** Office for Civil Rights, New York Office  
3200 Old Slip, 26<sup>th</sup>  
Floor New York,  
NY 10005 646-  
428-3900

Effective 8/1/24 the updated Title IX Sexual Harassment/Non-Discrimination Policy will be on Pennco tech website ([www.penncotech.edu](http://www.penncotech.edu))

# ***REFUND AND CANCELLATION POLICY***

Pennco Tech reserves the right to amend the terms of its Refund & Cancellation Policy to meet the Federal, State, Accrediting Body or any other regulatory agency statutes, guidelines, or regulations in effect when an applicant or student withdraws or is terminated.

## **Institutional Refund Policy - Cancellation**

Students are eligible for a full cancellation and full refund of all monies paid to Pennco Tech if their program start is rescheduled or canceled. For all voluntary cancellations on behalf of the student, the enrolled student must notify Pennco Tech in writing before the end of their 5<sup>th</sup> calendar day following the student's start date. Students who provide the cancellation notice in time will not have tuition charged and will be refunded on all advance payments made except for any nonrefundable charges incurred. All books issued to the student before cancellation are non-returnable and nonrefundable unless returned to the Business Office in brand new condition without any writing, folded pages, or other damage. Tools are non-refundable regardless of student status.

## **Institutional Refund Policy - Withdrawal**

Except for students who meet the conditions for cancellation, if the student should terminate his/her enrollment for any reason or the student is terminated for failure to meet the academic, attendance, financial, or student conduct standards outlined in this enrollment agreement, remaining prepaid tuition will be refunded within 30 days after the date of determination of withdrawal. Tuition is charged from the class start date through the last date of attendance. If the student withdraws before seventy percent (70%) completion of their payment period (equal to or less than 69.9%), tuition will be adjusted using the pro rata calculation of scheduled hours in the current payment period, and a return is processed for the remainder. This is for the current payment period only, as all payment periods after the student's current payment period are already fully earned and will not be refunded. If a student withdraws at seventy percent (70%) or more of the current payment period completion, all tuition charges are deemed fully earned within that payment period.

For students receiving Third-Party funding assistance, VA assistance including VOC Rehabilitation, Post 9/11, and Yellow Ribbon, and need additional information or questions answered, you should speak directly to your appointed financial aid representative located in the Financial Aid Office.

## ***Non-Federal Financial Aid Programs available to Students***

### **SCHOLARSHIPS**

Pennco Tech annually sponsors a full-tuition Scholarship Program. Only high school seniors are eligible to compete for these scholarships. The program is administered by an independent Scholarship Awards Committee. Normally, six (6) full scholarships are awarded annually between the Pennsylvania and New Jersey Pennco Tech Campuses. The value of which will vary depending on the programs in which the winners enroll.

Half-tuition scholarships are sponsored for the Cooperative Industrial Education (CIE) program. CIE handles all selection criteria for these scholarships. For more information on being an applicant for this program contact your CIE Instructor or Guidance Counselor's office at your high school. Also, for high school seniors only is the Imagine America Foundation, [www.imagine-america.org](http://www.imagine-america.org), Career and Technical Education Scholarship Program. Pennco Tech is one of many schools where this scholarship can be used. Please visit our Campus Admissions Office or the Imagine America webpage for additional information.

### **GRANTS**

The Pennsylvania State Grant Program awards grants to students, based on financial need, residency, and program enrollment, only the AST Degree Programs qualify. The State of Pennsylvania now offers (PATIP) and (EAP) for Pennsylvania residents. Students are eligible to apply for a Federal PELL Grant and Federal Supplemental Education Opportunity Grant (FSEOG).

## **VETERAN BENEFITS**

All programs are approved for veterans' benefits.

### **Title 38 United States Code Section 3679(e) School Compliance Form**

As part of the Veterans Benefits and Transition Act of 2018, section 3679 of title 38, United States Code was amended as follows:

**Effective August 1, 2019, the State Approving Agency, or the Secretary when acting in the role of the State Approving Agency, shall disapprove a course of education provided by an educational institution that has in effect a policy that is inconsistent with the areas below:**

**NOTE: A Covered Individual is** any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits.

- This policy permits any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 (a "certificate of eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans Affairs' (VA) website e-Benefits, or a VAF 28-1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates:
  1. The date on which payment from VA is made to the institution.
  2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.
- This policy ensures that we will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

In addition, statute allows this policy to require Ch. 31 and Ch. 33 students to take the following additional actions:

  1. Submit a certificate of eligibility for entitlement to educational assistance no later than the first day of a course of education.
  2. Submit a written request to use such entitlement.
  3. Provide additional information necessary to the proper certification of enrollment by the educational institution.
  4. This policy may also require additional payment or impose a fee for the amount that is the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement.

"GI Bill®" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at [www.benefits.va.gov/gibill](http://www.benefits.va.gov/gibill).

## **STATE REHABILITATION**

Financial aid in varying amounts is available to qualified handicapped students under various state agencies directing rehabilitation in Pennsylvania, New Jersey, Delaware and other states.

# ***STUDENT SERVICES***

Pennco Tech has all kinds of support; for all kinds of students. Students often have to balance a job, family and other responsibilities along with their academic work. Many students come to PenncoTech as the first in their family to attend college. Learn more about our student services and how we can help you succeed.

Visit the Student Services office in building 3 next to the Library to learn more about the services we have to offer.

## **TUTORING**

Instructors are available to students after regular class hours on an as-needed basis. Students can discuss academic concerns and arrange additional learning time directly with instructors.

## **ADVISING**

Instructors are able to provide advisement to students in most cases regarding school policy, academic requirements, technical information and career information. Problems or concerns beyond the scope of instructors can be addressed through the Director of Student Services or Director of Education. Assistance for career information or employment opportunities is available through the Career Services Office.

## **LIBRARY**

The school maintains a library, which contains a large volume of resource materials including textbooks, reference books, audio visuals and periodicals. Materials are representative of all programs taught at the school and can be checked out to be used as supplemental reading or research information. Students are encouraged to use the materials to expand on or support training information provided in their program. An inventory of the library contents is located in the library. The internet library is available to all students and has access to the World Wide Web.

## **HOUSING**

On-campus Dorms may be available. Other Living accommodations are available in private homes and apartments in the vicinity. The school makes information available regarding these accommodations as to their location and relationship with the school; however, it does not assume any responsibility for the safety or health of those residing in private homes, rooms, or apartments.

## **TRANSPORTATION**

Students can contact other students in the school for possible car-pooling or ride-sharing through the Student Services Office. The Office will provide student location and travel route information to all students in the school to help coordinate riders and drivers in the same areas, however, the school does not assume any responsibility for the safety or reliability of drivers.

## ***CAREER SERVICES***

Pennco Tech assists students in seeking employment after graduation at no additional charge. This assistance includes:

- Encouraging representatives from local and out-of-city companies to visit the school to recruit/hire.
- Maintaining contacts with local and out-of-city companies to identify employment openings and arrange student interviews.
- Making connections with companies not previously hired from Pennco Tech to create new employment opportunities.
- Keeping in touch with graduates who are seeking employment.
- Checking with interviewers who visit the school or contact the school to assess their satisfaction with Pennco Tech graduates.
- Maintaining graduation and employment records to track student outcomes.

This comprehensive support is aimed at helping Pennco Tech students successfully transition from their education to meaningful employment opportunities in their chosen fields

**(THERE IS NO GUARANTEE OR PROMISE OF THE AVAILABILITY OF EMPLOYMENT.)**

## ***COPYRIGHT INFRINGEMENT***

### **Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws:**

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, please see the Web site of the U.S. Copyright Office [at www.copyright.gov](http://www.copyright.gov), especially their FAQ's at [www.copyright.gov/help/faq](http://www.copyright.gov/help/faq).

## ***STUDENT COMPLAINT/GRIEVANCE PROCEDURE***

If a student feels that a concern has not been adequately addressed through their instructor or the Director of Education, he/she may contact the School Director. Every effort will be made to satisfy the student's issues within the School Director's ability. If a student still feels his concerns have not been adequately addressed, they may then contact the Vice President of Pennco Tech in writing.

If after these avenues have been thoroughly exhausted and the student feels that the school has not adequately addressed a concern, the student may consider contacting the Pennsylvania Department of Education, State Board of Private Licensed Schools or the Accrediting Commission.

State Board of Private Licensed Schools Mailing Address:  
607 South Drive, Floor 3E  
Harrisburg, PA 17120

Phone: 717-783-8228

Fax 717-772-3622

E-Mail: [ra-pls@pa.gov](mailto:ra-pls@pa.gov).

Contact the Accrediting Commission of Career Schools and Colleges (ACCSC) by following the steps outlined below:

#### **STUDENT COMPLAINT PROCEDURE**

Schools accredited by the Accrediting Commission of Career Schools and Colleges must have a procedure and operational plan for handling student complaints. If a student does not feel that the school has adequately addressed a complaint or concern, the student may consider contacting the Accrediting Commission. All complaints reviewed by the Commission must be in written form and should grant permission for the Commission to forward a copy of the complaint to the school for a response. This can be accomplished by filing the ACCSC Complaint Form. The complainant(s) will be kept informed as to the status of the complaint as well as the final resolution by the Commission. Please direct all inquiries to:

**Accrediting Commission of Career Schools &  
Colleges 2101 Wilson Boulevard, Suite 302  
Arlington, VA 22201  
(703) 247-4212**

[www.accsc.org](http://www.accsc.org) | [complaints@accsc.org](mailto:complaints@accsc.org)

A copy of the ACCSC Complaint Form is available at the school and may be obtained by contacting Alfred W. Parcels, Jr. the School Director or online at [complaints@accsc.org](mailto:complaints@accsc.org) or at <https://www.accsc.org/Student-Corner/Complaints.aspx>.

### ***CHANGES IN START DATES, PROGRAM CHANGES – INCLUDING CURRICULUM, TUITION & FEES***

Pennco Tech reserves the right to: (1) reschedule program start dates due to insufficient registration or unforeseen contingencies; (2) revise program outlines, lesson materials and fees; (3) make such other changes as the School deems advisable, after approval by the proper authority. Any adjustment to the cost of tuition will be limited to no more than once in a calendar year and at least 60 days advance notice will be given.

## ***VACCINATION / IMMUNIZATION***

Pennco Tech does not require vaccination/immunization documentation to attend school. They are required to enter primary schools (K to 12). If you have not received the required immunizations, contact your doctor to update your vaccinations and immunizations. The state of Pennsylvania does require proof of vaccination if a student requests to live in our on Bristol Campus Dorm (Please see the Director of Student Services for additional information).

For additional information regarding vaccinations and immunizations please visit the Centers for Disease Control (CDC): at [www.cdc.gov](http://www.cdc.gov) or (800) 232-4636. On the CDC website this information can be found under the Healthy Living tab.

## ***GRADUATION/COMPLETION RATES***

PENNCO TECH – BRISTOL, PA DISCLOSURE

As required by the Federal Student Right to Know and Campus Security Act, Public Law 101-542, the following information is provided on program completion rates at Pennco Tech. Refer to our Website for the latest statistics to include full time students entering school September 1, 2008 or later with class hours that have not exceeded 1½ times the program length.

### **Student Body Diversity – Race/Ethnicity and Gender**

Pennco Tech's student body diversity, including the percentage of enrolled, full time students in the following categories: Male, Female, Self-identified members of a major racial or ethnic group; and Federal Pell Grant recipients. This information is available at: <http://nces.ed.gov/collegenavigator>

### **Graduation Rates:**

Graduation rates, by student diversity, are available at: <http://nces.ed.gov/collegenavigator>

### **Retention Rate:**

Pennco Tech's retention rate statistics are also available at: <http://nces.ed.gov/collegenavigator>

### **Program Equipment**

<b>Totals</b>		<b>894</b>	<b>906</b>	<b>1800</b>	<b>75</b>	

**Program Objective:**

This program will enable a student to seek employment as an entry-level Automotive Technician with knowledge in both foreign and domestic cars. The graduate will be equipped with the basic knowledge to repair, replace and diagnose most systems and sub-systems, using test equipment found in the auto industry today. Supportive instruction throughout the program acquaints the student with oral and written communication techniques. In addition, Applied General Education courses will provide students with skills in vocational math, English language usage, communication through writing, and basic computer applications.

Pennco Tech does not use Distance Education, or online learning, as a primary delivery method for any of its course content in any Program/Course offered by the school. We will ONLY use online training for your lecture material in issues of inclement weather and/or pandemic issues. Pennco Tech uses Microsoft TEAMS as its delivery system for online classes when used. If you do not own a computer that has a camera and microphone, the Education Department will offer you the opportunity to sign out a school-owned laptop and your Instructor will train your class on how to use Microsoft TEAMS for those times it may be needed as discussed above.

**WELDING  
DAY SCHOOL  
DIPLOMA**

**WELDING DAY SCHOOL**

**Number of Months 7**

**Number of Weeks 26**

**Total Program Hours 900**

Term

WLD 101

Welding Fundamentals

Clock Hours

450 (186D) (264P)

WLD 102

Advanced Welding

450 (153D) (297P)

**Total Clock Hours**

**900**

**Program Objective:**

The Welding program prepares students for entry level welder positions. Students develop key fundamental skills during the initial course and learn to apply these skills using different and more complex welding procedures. The welding procedures include Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW/MIG), Flux Core Arc Welding (FCAW), and Gas Tungsten Arc Gas Welding (GTAW/TIG). Using each of these procedures, students learn to weld plate in various positions including horizontal, vertical, and overhead. Students also learn various techniques for cutting and preparing metal for welding procedures. Upon successful completion of all components of this program, the graduate should possess the working knowledge and skills to qualify as a welder using any one of three standard welding processes in construction, fabrication, or plant maintenance work settings. Students should be able to successfully complete pre-qualification tests for any construction structural or pipe related projects.

This program will enable a student to obtain an enter-level positions with the following and similar job titles:

Welder-helper, Welder, Brazer, Cutter, Fabrication Welder, Fitter/Welder, Industrial and Maintenance Welder, Shielded Metal Arc welder, and Solderer.

**THIS PROGRAM DOES NOT CERTIFY/LICENSE OR GUARANTEE BECOMING A CERTIFIED/LICENSED WELDER IN PENNSYLVANIA OR ANY OTHER STATE. A REVIEW OF CERTIFICATION/LICENSEING REQUIREMENTS FOR PENNSYLVANIA/NEW JERSEY WILL BE INCLUDED IN COURSE WLD 101.**

Pennco Tech does not use Distance Education, or online learning, as a primary delivery method for any of its course content in any Program/Course offered by the school. # COURSE DESCRIPTIONS

# **Automotive Technology Program – AST – 75 Semester Credit**

## **1800 Hour**

### **Day Courses**

**\*\* Currently Not Accepting Enrollments\*\***

#### **ATD 101 Fundamentals (Prerequisite None)**

##### Learning Outcomes:

- \* Understand early developments, design, and progresses of the automotive industry
- \* Understand industry standards of shop safety and safe handling of hand, air, and power tools
- \* Understand the applications of industry standard fasteners, gaskets, and sealants
- \* Understand shop manuals, service information, and vehicle information
- \* Understand and apply advanced skills of precision measurement
- \* Understand and apply the operational principles of the internal combustion engine
- \* Understand the basic operation, construction and maintenance of cooling, fuel, lubrication, brakes, suspension, air conditioning, wheels and alignment
- \* Understand the different types and makeup of oils and fuels used in the automotive and diesel industries
- \* Understand and apply principles of safety when using oxyacetylene cutting
- \* Understand and demonstrate tire service – mounting and balancing
- \* Understand and demonstrate battery service and diagnostics
- \* Understand and apply basic principles of electricity applicable to the automotive industry
- \* Understand and demonstrate proper Preventive Maintenance (PM) service.

#### **ATD 202 Chassis (Prerequisite ATD 101)**

##### Learning Outcomes:

- \* Understand and apply principles of theory and operation of suspension systems
- \* Understand and apply principles of theory and operation of drive axle shafts and CV joints
- \* Understand and apply principles of theory and operation of steering systems
- \* Understand and apply principles of theory and operation of brake systems
- \* Understand and apply principles of wheel alignment
- \* Understand and apply standard methods and procedures of diagnostic and repair to the whole chassis.

#### **ATD 203 Electrical (Prerequisite ATD 101)**

##### Learning Outcomes:

- \* Understand and apply principles of basic electricity and electronics
- \* Understand and apply the use of multi meters when testing electrical components
- \* Understand and apply the principles of series and parallel circuits
- \* Understand and apply the principles of direct and alternating currents
- \* Understand and apply the principles of the relationship of magnetism and electricity
- \* Understand and apply the principles of magnetism and how it relates to alternators and starter motors
- \* Understand and apply the principles of relays and transistors and how they relate to the automobile
- \* Understand and apply principles of restraint systems
- \* Understand and apply principles of electrical windows, power seats, wiper and miscellaneous accessory diagnostics
- \* Understand and apply the principles of refrigeration and how to diagnose and test A/C Systems
- \* Understand and apply principles of theory and operation of air bag systems.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

### **ATD 209 Computerized Engine Management (Prerequisite ATD 101, ATD 203)**

#### Learning Outcome:

- \* Understand and apply principles of theory and operation of computerized engine management systems
- \* Understand and apply principles of theory and operation of sensors
- \* Understand and apply principles of theory and operation of fuel delivery and fuel injection systems
- \* Understand and apply the principles of ignition coils and ignition circuits, and testing
- \* Understand and apply principles of theory and operation of ignition systems
- \* Understand and apply principles of theory and operation of emission systems
- \* Understand and apply standard methods and procedures of diagnosis and repair of drivability issues
- \* Students to review and take the PennDOT Emissions Inspector Certification course.

### **ATD 210 Diagnosis & Repair (Prerequisites ATD 101,202,203,209,212)**

#### Learning Outcomes:

- \* Understand and apply a strong sense of safety awareness
- \* Understand and apply good work ethics, while maintaining professionalism
- \* Understand and apply knowledge in diagnostics in all phases of automotive repairs
- \* Understand and apply principles of theory and operation in a transfer case
- \* Understand and apply principles of theory and operation of a differential
- \* Understand and apply a sense of what takes place in an actual automotive shop
- \* Understand and apply proper automotive repair procedures
- \* Students to review and take the PennDOT Vehicle Equipment and Inspection Certification course.

### **ATD 212 POWERTRAIN (Prerequisite ATD 101)**

#### Learning Outcomes:

- \*Understand and apply principles of clutch theory and operation
- \*Understand and apply principles of theory and operation in a manual, automatic and transaxle transmission
- \*Understand and describe driveshaft design and balance
- \*Understand the purpose, function, and operation of Universal-joints (U-joint)
- \*Understand how constant velocity (CV) joints work and the various types of CV joints
- \*Understand and apply standard methods and procedures of diagnostic and repair to the whole powertrain including mechanical, hydraulic and electronic components
- \*Understand and apply the principles of theory and operation of the internal combustion engine/motor
- \*Understand and apply the principles of theory and operation of all major components and support systems of the engine/motor
- \*Understand and apply methods and procedures of engine identification, disassembly, inspection, precision measurement and repair and reassembly
- \*Understand and apply standard methods and procedures of diagnostics to the whole engine.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

# **Applied General Education Day Courses for the Automotive Technology Program-Associate in Specialized Technology Degree Program – (75 Semester Credit Hour) 1800 Hour**

## **GEN 100 Automotive Math Skills** *(Prerequisite None)*

Learning Outcomes:

- \* Understand how to solve general automotive math problems
- \* Understand the electrical properties of voltage, current, resistance, and power in electrical circuits
- \* Understand the operation of a series and of parallel circuit
- \* Apply Ohm's Law and Watt's Law to calculations in series and parallel circuits.

## **GEN 101 Computer Applications** *(Prerequisite None)*

Learning Outcomes:

- \* Understand how to create automotive shop orders in Mitchell Manager Plus
- \* Understand how to create technical lists to be used with shop orders in Mitchell Manager Plus
- \* Understand how to look up technical information and specifications in Mitchell Pro Demand
- \* Understand how to create effective employment documents under the direction of Career Services.

## **GEN 102 Applied English Fundamentals** *(Prerequisite None)*

Learning Outcomes:

- \* Understand the basic parts of speech
- \* Understand how the basic parts of speech are used to create effective sentences
- \* Understand basic technical vocabulary related to automotive electrical circuits
- \* Apply concepts involved in technical vocabulary to the analysis of automotive electrical diagrams and schematics.

## **GEN 103 Fundamentals: Technical Writing** *(Prerequisite None)*

- \* Apply technical content in the form of a paper by writing effective sentences and paragraphs from a gained understanding of fundamental concepts in the automotive industry.

## **GEN 104 Chassis: Technical Writing** *(Prerequisite None)*

- \* Apply technical content in the form of a paper by writing effective sentences and paragraphs from a gained understanding of an automobiles chassis system.

## **GEN 105 Electrical: Technical Writing** *(Prerequisite None)*

- \* Apply technical content in the form of a paper by writing effective sentences and paragraphs from a gained understanding of an automobiles electrical system.

## **GEN 107 Computerized Engine Management: Technical Writing** *(Prerequisite None)*

- \* Apply technical content in the form of a paper by writing effective sentences and paragraphs from a gained understanding of computerized engine management concepts in the automotive industry.

## **GEN 108 Diagnoses and Repair: Technical Writing** *(Prerequisite None)*

- \* Apply technical content in the form of a paper by writing effective sentences and paragraphs from a gained understanding of trouble shooting, repair and inspection techniques in the automotive industry.

## **GEN 112 Powertrain: Technical Writing** *(Prerequisite None)*

- \* Apply technical content in the form of a paper by writing effective sentences and paragraphs from a gained understanding of the power train assembly.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

# **Automotive Technology Program – Diploma**

## **1350 Clock Hour Day Courses**

### **ATXD-101 Chassis**

**(Prerequisite: None)**

#### **Learning Outcomes:**

- \*Understand industry standards of shop safety and safe handling of hand, air, and power tools
- \*Understand the applications of industry standards, fasteners, gaskets, and sealants
- \*Understand the basic operation, construction and maintenance of cooling, fuel, lubrication, brakes, suspension, wheels and alignment
- \*Understand and apply principles of electricity applicable to the automotive industry
- \* Understand and apply principles of torch use
- \*Understand and apply principles of theory and operation of suspension systems
- \* Understand and apply principles of theory and operation steering systems
- \*Understand and apply principles of theory and operation of brake systems
- \*Understand and apply principles of theory and operation of air bag systems
- \*Understand and apply principles of wheel alignment
- \*Understand and apply principles of the abs systems
- \*Understand and apply standard methods and procedures of diagnostic and repair to the whole chassis
- \*Will be able to properly complete an Internet Research Project

### **ATXD 102 Electrical & Computer Engine Management**

**(Prerequisite: None)**

#### **Learning Outcomes:**

- \*Understand and apply principles of basic electricity and electronics
- \*Understand and apply the use of multimeters when testing electrical components
- \*Understand and apply the principles of series and parallel circuits
- \*Understand and apply the principles of direct and alternating currents
- \*Understand and apply the principles of ignition coils and ignition circuits, and testing
- \*Understand and apply the principles of the relationship between magnetism and electricity
- \*Understand and apply the principles of magnetism and how it relates to alternators and starter motors
- \*Understand and apply the principles of relays and transistors and how they relate to the automobile
- \*Understand and apply the principles of refrigeration and how to diagnose and test A/C Systems
- \*Understand and apply principles of theory and operation of computerized engine management systems
- \*Understand and apply principles of theory and operation of sensors
- \*Understand and apply principles of theory and operation of fuel delivery and fuel injection systems
- \*Understand and apply principles of theory and operation of ignition systems
- \*Understand and apply principles of theory and operation of emission systems
- \*Understand and apply standard methods and procedures of the diagnosis and repair of automotive electronic and electrical systems
- \*Understand electric and hybrid vehicle safety and service procedures
- \*PA Emission Certification Course

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

**ATXD103: Engines and Service Shop**  
**(Prerequisite: ATXD 101, ATXD 102)**

**Learning Outcomes:**

- \*Understand and apply the principles of theory and operation of the internal combustion engine
- \*Understand and apply the principles of theory and operation of all major components and support systems of the engine
- \*Understand the operating principles of the cooling and lubrication systems
- \*Understand and apply principles of theory and operation in a transfer case
- \*Understand and apply principles of theory and operation of a differential
- \*Understand and apply methods and procedures of engine identification, disassembly, inspection, precision measurement, repair, overhaul, and reassembly
- \*Understand and apply standard methods and procedures of diagnostic and repair to the whole engine
- \*Understand and apply a strong sense of safety awareness.
- \*Understand and apply good work ethics, while maintaining professionalism.
- \*Understand and apply knowledge in diagnostics in all phases of automotive repairs.
- \*Understand and apply a sense of what takes place in an actual automotiveshop.
- \*Understand and apply proper automotive repair procedures.
- \*Understand and apply good work ethics, while maintaining professionalism in the shop
- \*PA Safety Inspection Training and Testing

**Automotive Technology Modified Program – Diploma**  
**1200 Clock Hour Evening Courses**

**ATXE 101: Chassis**  
**(Prerequisite: None)**

**Learning Outcomes:**

Understand and apply principles of theory and operation of suspension systems

- \*Understand and apply principles of theory and operation of steering systems
- \*Understand and apply principles of theory and operation of brake systems
- \*Understand and apply principles of theory and operation of airbag systems
- \*Understand and apply principles of wheel alignment
- \*Understand and apply principles of restraint systems
- \*Understand and apply standard methods and procedures of diagnostic and repair to the whole chassis

**ATXE 102: Electrical**  
**(Prerequisite: None)**

**Learning Outcomes:**

Understand and apply principles of basic electricity and electronics

- \*Understand and apply the use of multimeters when testing electrical components
- \*Understand and apply the principles of series and parallel circuits
- \*Understand and apply the principles of direct and alternating currents
- \*Understand and apply the principles of ignition coils and ignition circuits and testing
- \*Understand and apply the principles of the relationship between magnetism and electricity
- \*Understand and apply the principles of magnetism and how they relate to alternators and starter motors
- \*Understand and apply the principles of relays and transistors and how they relate to the automobile
- \*Understand and apply the principles of refrigeration and how to diagnose and test A/C Systems

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

### **ATXE 103: Engines**

**(Prerequisite: None)**

#### **Learning Outcomes:**

- \*Understand and apply the principles of theory and operation of the internal combustion engine
- \*Understand and apply the principles of theory and operation of all major components and support systems of the engine
- \*Understand the operating principles of the cooling and lubrication systems
- \*Understand and apply methods and procedures of engine identification, disassembly, inspection, precision measurement, repair, overhaul, and reassembly
- \*Understand and apply standard methods and procedures of diagnostic and repair to the whole engine

### **ATXE 104: Computerized Engine Management**

**(Prerequisite ATXE 102)**

#### **Learning Outcomes:**

- \*Understand and apply principles of theory and operation of computerized engine management systems
- \*Understand and apply principles of theory and operation of sensors
- \*Understand and apply principles of theory and operation of fuel delivery and fuel injection systems
- \*Understand and apply principles of theory and operation of ignition systems
- \*Understand and apply principles of theory and operation of emission systems
- \*Understand and apply standard methods and procedures for the diagnosis and repair of automotive electronic and electrical systems
- \*PA Emission Certification Course

### **ATXE 105: Service Shop**

**(Prerequisite: (ATXE 101, ATXE 102, ATXE 103, ATXE 104)**

#### **Learning Outcomes:**

- \*Understand and apply removal and replacement of an engine
- \*Understand and apply principles of theory and operation in a transfer case
- \*Understand and apply principles of theory and operation of a differential
- \*Understand and apply a strong sense of safety awareness.
- \* Understand and apply knowledge in diagnostics in all phases of automotive repairs.
- \*Understand and apply proper automotive repair procedures
- \*Understand and apply good work ethics, while maintaining professionalism in the shop
- \*PA Safety Inspection Training and Testing

# **Collision Repair Program – Diploma**

## **960 Clock Hour Day Courses**

**\*\* Currently Not Accepting Enrollments\*\***

### **CR 100 Collision Repair Major/Minor**

(Prerequisite None)

Learning Outcomes:

- \* Understand and apply industry standards of shop safety and safe handling of hand, power, electric, and air tools
- \* Understand and apply principles of welding technologies
- \* Understand and apply principles of metallurgy and working sheet metal
- \* Understand and apply industry standards of application with body fillers and repair of plastic panels, and grit scale
- \* Understand and apply standard methods and procedures of assessment and repair to different metals and plastic used in the automotive industry
- \* Understand and apply safe handling procedures of tools and equipment used in the Autobody industry
- \* Understand and apply principles of frame measuring and pulling procedures
- \* Understand and apply principles body structure, assessment and repair
- \* Understand and apply principles of panel replacement
- \* Understand and apply principles of panel alignment, remove/replace panels and align.

### **CR 101 Preparation and Paint**

(Prerequisite CR 100)

Learning Outcomes:

- \* Understand and apply industry standards of shop safety, equipment, and safe handling of tools
- \* Understand and apply principles of operation and up-keep of HVLP spray guns
- \* Understand and demonstrate a working knowledge of different types of primers, paints, body filler, and putty
- \* Understand and apply principles of paint removal and procedures of sanding, taping, and masking a car
- \* Understand and apply principles of paint booth maintenance
- \* Understand and apply standard methods and procedures of assessment and repair necessary for surface preparation before priming and painting
- \* Understand and apply principles of the paint spray gun
- \* Understand and apply principles of paint chemistry for tinting, blending and mixing paint
- \* Understand and apply fundamental steps of buffing, pin-striping, decal overlaying, and final detailing for vehicle delivery.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

# **Collision Repair Modified Program– Diploma**

## **960 Clock Hour Evening Courses**

**\*\* Currently Not Accepting Enrollments\*\***

### **ABE 101 Basic Body Repair (Prerequisite None)**

Learning Outcomes:

- \* Understand and apply industry standards of shop safety and safe handling of hand, power, electric, and air tools
- \* Understand and apply principles of welding technologies
- \* Understand and apply principles of plasma cutting
- \* Understand and apply principles of oxyacetylene cutting
- \* Understand and apply principles of metallurgy and working sheet metal
- \* Understand and apply industry standards of application with body fillers and repair of plastic panels, and grit scale
- \* Understand and apply standard methods and procedures of assessment and repair to different metals and plastic used in the automotive industry.

### **ABE 102 Major Body Repair (Prerequisite None)**

Learning Outcomes:

- \* Understand and apply safe handling procedures of tools and equipment used in the Auto body industry
- \* Understand and apply fundamental principles of theory and operation of engine cooling and exhaust systems
- \* Understand and apply fundamental principles of theory and operation of air conditioning systems
- \* Understand and apply principles of suspension
- \* Understand and apply principles of brake systems
- \* Understand and apply principles of frame measuring and pulling procedures
- \* Understand and apply principles body structure, assessment and repair
- \* Understand and apply principles of panel replacement
- \* Understand and apply principles of panel alignment, remove/replace panels and align
- \* Understand and apply standard methods and procedures of assessment and repair to a vehicles major structure, drive train, suspension system, cooling, air conditioning, and brake systems.

### **ABE 103 Surface Preparation (Prerequisite None)**

Learning Outcomes:

- \* Understand and apply industry standards of shop safety, equipment, and safe handling of tools
- \* Understand and apply principles of operation and up-keep of HVLP spray guns
- \* Understand and demonstrate a working knowledge of different types of primers, paints, body filler, and putty
- \* Understand principles of booth maintenance
- \* Understand and apply principles of paint removal and procedures of sanding, taping, and masking a car
- \* Understand and apply standard methods and procedures of assessment and repair necessary for surface preparation before priming and painting.

### **ABE 104 Refinishing, Painting (Prerequisite None)**

Learning Outcomes:

- \* Understand and apply principles of booth maintenance
- \* Understand and apply principles of the paint spray gun
- \* Understand and apply principles of paint chemistry for tinting, blending and mixing paint
- \* Understand and apply fundamental steps of buffing, pin-stripping, decal overlaying, and final detailing for vehicle delivery.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information

## **Electrician Program – Diploma**

### **900 Clock Hour Day and Evening Courses**

#### **ELC 101 Electricity Fundamentals**

**(Prerequisite None)**

##### **Learning Outcomes:**

- \* Understand and apply principles of electrical safety and safe handling of tools and equipment
- \* Understand and apply foundational principles and theory of electricity
- \* Understand and apply a working knowledge of series, parallel and combination circuits
- \* Understand and apply a working knowledge of electrical measuring instruments
- \* Understand and apply principles of theory and operation of alternators, DC motors and DC generators
- \* Understand and apply principles of resistance, inductive and capacitive loads
- \* Understand and apply principles of single and three phase transformers.

#### **ELC 102 Residential Wiring & Electrical Grounds**

**(Prerequisite ELC 101)**

##### **Learning Outcomes:**

- \* Understand and apply principles of residential electrical installations and service entrance equipment
- \* Understand and apply principles of residential branch circuit analysis and installation
- \* Understand and apply industry standard methods of wiring, splicing, grounding, lighting, structured cabling, and electrical installation of residential appliances
- \* Understand and apply principles of the National Electric Code.

#### **ELC 103 Commercial Electrical Application**

**(Prerequisite ELC 101)**

##### **Learning Outcomes:**

- \* Understand and apply principles of commercial electrical plans and specifications
- \* Understand and apply industry standard methods of wiring, splicing, grounding, and luminaires
- \* Understand and apply principles of commercial branch circuit analysis and installation
- \* Understand and apply principles of load calculations for branch circuits and feeders
- \* Understand apply standard methods of troubleshooting and installation of commercial electrical appliances and equipment.
- \* Understand and apply both relay and motor control logic for three phase and single-phase motor systems.
- \* Understand and apply basic conduit bending and installation for both PVC and EMT type conduit, also learn how to cut and thread RMC type conduit.
- \* Students will be given the opportunity to attend OSHA 10 training classes, upon completion and passing a final exam the student will receive an OSHA 10 certification card.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

# **Heating, Ventilation, Air Conditioning & Refrigeration – Diploma**

## **1200 Clock Hour Day Courses**

### **ARD 101 Fundamentals**

**(Prerequisite None)**

#### **Learning Outcomes:**

- \* Understand foundational theories of heat transfer and temp/pressure relationships
- \* Understand foundational theories of thermodynamics
- \* Understand and demonstrate Shop Safety and Tools used in the industry
- \* Understand and demonstrate the use of refrigerants and components used with in the refrigeration cycle
- \* Understand and apply field skills of brazing, soldering, tubing and fittings
- \* Understand how electricity, controls, and wiring schematics are used in the field.
- \*

### **ARD 102 Commercial Refrigeration**

**(Prerequisite ARD 101)**

#### **Learning Outcomes:**

- \* Understand and apply industry methods of service to Compressors/Controls, Condensers/Controls, Metering Devices/Applications, and Evaporators/Product Control
- \* Understand and apply advanced skills of motor wiring and interpretation of electrical schematics
- \* Understand and apply industry methods of maintenance and servicing of Ice Machines
- \* Understand and apply industry methods of service to Chillers and Cooling Towers.

### **ARD 103 Air Conditioning**

**(Prerequisite ARD 101)**

#### **Learning Outcomes:**

- \* Understand practical applications of Psychometrics and the Psychometric Chart
- \* Understand and apply heat loss and heat gain for residential load calculations
- \* Understand and apply principles of air flow and balancing duct systems
- \* Understand and apply residential duct design
- \* Understand and apply the cycle of refrigeration to residential and commercial air conditioning
- \* Understand and apply theory of air to air and ground source heat pumps
- \* Understand and apply procedures of installation, troubleshooting, and repairs to residential and commercial air conditioning.

### **ARD 104 Heating Systems**

**(Prerequisite ARD 101)**

#### **Learning Outcomes:**

- \* Understand the combustion theory, properties of liquid and gases fuels, the proper fuel mixture
- \* Understand what elements are required to establish a flame, products of combustion
- \* Understand and apply skills of electrical schematics and components that apply to the heating industry
- \* Understand the theories of Hydronics through gas and oil low pressure boilers
- \* Understand and apply industry fundamentals of solar heating.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

## **Heating, Ventilation, Air Conditioning & Refrigeration Modified– Diploma**

### **960 Clock Hour Evening Courses**

#### **ARE 101 Fundamentals**

**(Prerequisite None)**

**Learning Outcomes:**

- \* Understand foundational theories of heat transfer and temp/pressure relationships
- \* Understand foundational theories of thermodynamics
- \* Understand and demonstrate Shop Safety and Tools used in the industry
- \* Understand and demonstrate the use of refrigerants and components used with in the refrigeration cycle
- \* Understand and apply field skills of brazing, soldering, tubing and fittings
- \* Understand how electricity, controls, and wiring schematics are used in the field.

#### **ARE 102 Commercial Refrigeration**

**(Prerequisite ARE 101)**

**Learning Outcomes:**

- \* Understand and apply industry methods of service to Compressors/Controls, Condensers/Controls, Metering Devices/Applications, and Evaporators/Product Control
- \* Understand and apply advanced skills of motor wiring and interpretation of electrical schematics
- \* Understand and apply industry methods of maintenance and servicing of Ice Machines
- \* Understand and apply industry methods of service to Chillers and Cooling Towers.

#### **ARE 103 Air Conditioning**

**(Prerequisite ARE 101)**

**Learning Outcomes:**

- \* Understand practical applications of Psychometrics and the Psychometric Chart
- \* Understand and apply heat loss and heat gain for residential load calculations
- \* Understand and apply principles of air flow and balancing duct systems
- \* Understand and apply residential duct design
- \* Understand and apply the cycle of refrigeration to residential and commercial air conditioning
- \* Understand and apply procedures of installation, troubleshooting, and repairs to residential and commercial air conditioning
- \* Understand and apply theory of air to air and ground source heat pumps.

#### **ARE 104 Heating Systems**

**(Prerequisite ARE 101)**

**Learning Outcomes:**

- \* Understand the combustion theory, properties of liquid and gases fuels, the proper fuel mixture
- \* Understand what elements are required to establish a flame, products of combustion
- \* Understand and apply skills of electrical schematics and components that apply to the heating industry
- \* Understand and apply industry fundamentals of solar heating
- \* Understand the theories of Hydronics through gas and oil low pressure boilers.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

## **Medical Assistant – Diploma**

### **600 Clock Hour Day and Evening Courses**

#### **MAA 101 (Prerequisite None)**

##### **Learning Outcomes:**

- \* Understand and demonstrate a working knowledge of Microsoft office
- \* Understand and apply a working knowledge of financial procedures in the medical office
- \* Understand fundamental principles of risk management involved with the profession of medical administrative assisting
- \* Understand and apply fundamental terms associated with communication utilizing technologies and correct terminology associated with the field of medical administrative assisting
- \* Understand and apply principles of the safe handling and disposal procedures of biohazardous materials.

#### **MAA 102 (Prerequisite MAA 101)**

##### **Learning Outcomes:**

- \* Understand and demonstrate a working knowledge of general patient care
- \* Understand apply fundamental principles of communication utilizing technologies and correct terminology associated with the field of medical assisting
- \* Understand and be familiarized with medical law and ethics
- \* Understand and demonstrate a working knowledge of phlebotomy
- \* Understand and demonstrate a working knowledge of EKG monitoring
- \* Understand and apply overall knowledge and skills associated with the expectations of a Certified Clinical Medical Assistant.

## **Plumbing and Heating Technology – Diploma**

### **900 Clock Hour Day Courses**

#### **ARD 101 Fundamentals**

##### **(Prerequisite None)**

##### **Learning Outcomes:**

- \* Understand foundational theories of heat transfer and temp/pressure relationships
- \* Understand foundational theories of thermodynamics
- \* Understand and demonstrate Shop Safety and Tools used in the industry
- \* Understand and demonstrate the use of refrigerants and components used with in the refrigeration cycle
- \* Understand and apply field skills of brazing, soldering, tubing and fittings
- \* Understand how electricity, controls, and wiring schematics are used in the field.

#### **ARD 104 Heating Systems**

##### **(Prerequisite ARD 101)**

##### **Learning Outcomes:**

- \* Understand the combustion theory, properties of liquid and gases fuels, the proper fuel mixture
- \* Understand what elements are required to establish a flame, products of combustion
- \* Understand and apply skills of electrical schematics and components that apply to the heating industry
- \* Understand and apply industry fundamentals of solar heating
- \* Understand the theories of Hydronics through gas and oil low pressure boilers.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

## **PLM 101 Plumbing**

**(Prerequisite None)**

### **Learning Outcomes:**

- \* Understand and apply industry standards and service to plumbing systems in accordance with the National Plumbing Code
- \* Understand principles of operation of drain waist-vent systems and water supply systems
- \* Understand and apply a working knowledge of pipe fitting used in various plumbing systems
- \* Understand and apply industry methods of pipe installation and connections used in the plumbing industry
- \* Understand and apply industry methods of service to general appliances including water heaters, sinks, toilets, sanitary drainage systems, potable water supply, and storm water drainage systems
- \* Understand and demonstrate principles of lead, oakum and cast-iron pipe joints.

## **Welding – Diploma**

### **900 Clock Hour Day and Evening Courses**

#### **WLD 101 Welding Fundamentals**

**(Prerequisite None)**

##### **Learning Outcomes:**

- \* Understand and demonstrate Shop Safety.
- \* Understand, identify and properly utilize the tools/equipment in the welding industry.
- \* Understand Alloy identification.
- \* Understand and identify Welding symbols.
- \* Demonstrate the ability to properly read blue prints.
- \* Understand and identify the electrical principles of welding.
- \* Understand and able to identify the development of welding processes, welding processes and the occupational opportunities in the welding industry.
- \* Understand and able to demonstrate proper stick welding.
- \* Understand and able to demonstrate proper MIG Welding.
- \* Understand and able to identify the industry specific types, terms, joints and designs of welds.
- \* Internet Research Project.

#### **WLD 102 Advanced Welding**

**(Prerequisite WLD 101)**

##### **Learning Outcomes:**

- \* Understand and identify the components of Oxyacetylene Welding (OAW)
- \* Understand and identify the components of Shielded Metal Arc Welding (SMAW)
- \* Understand and identify the types of welding positions for SMAW.
- \* Understand and identify the components of Gas Tungsten Arc Welding (GTAW)
- \* Demonstrate an ability to perform overhead welding
- \* Demonstrate the ability to perform horizontal welding
- \* Demonstrate the ability to properly perform TIG welding.
- \* Understand the process to take the certified welder's exam.

For more information about our graduation rates, the median debt of students who completed the program and other important information, please view our website at [www.penncotech.edu/disclosure.php](http://www.penncotech.edu/disclosure.php) and select Bristol Student Consumer Information.

# *School Directory*

## **School Administration:**

Michael Hobyak	<b>President</b>	
Jason Hobyak	<b>Vice President</b>	
Chris Ryan	<b>Chief Operating Officer</b>	
Karl Mancuso	<b>Executive Director of Admissions</b>	
Gene Bomgardner	<b>Corporate Director of IT</b>	
Kacy Linden	<b>Corporate Director of Financial Services</b>	
Teresa Gallagher	<b>Executive Director of Human Resources/Title IX Coordinator</b>	
Danielle J. Cattell	<b>Executive School Director</b>	215-785-0111
Chase Kilmer	<b>Director of Education</b>	215-785-0111
Mark Raccagno	<b>Evening Education Supervisor</b>	215-785-0111
Sean Roberts	<b>Director of Student Services</b>	215-785-0111
Tekoa Capps	<b>Director of Career Services</b>	215-785-0111
Amanda Cottrell	<b>Director of Registrars</b>	215-785-0111
Jack Carduff	<b>Director of Maintenance</b>	
Mark Raccagno	<b>Librarian</b>	
Angela Nemeth	<b>Director of Financial Operations</b>	
Sean Costello	<b>Business Office Manager</b>	

**Business Office Staff-** See list in the Director of Financial Operations Office 215-785-0111

## **Admissions Representatives:**

Chad Thomas Assistant Director of Admissions 215-785-0111  
All current Admissions Representatives -See list in the Executive Director of Admission's Office

## **Financial Services:**

Pattie Himes – Associate Director of Financial Services 215-785-0111  
Victor Hom- Sr Student Loan Coordinator  
All current Financial Services Associates- -See list in the Corporate Director of Financial Service's Office

**Career Service Administrators:** See list in the Director of Student Service's Office 215-785-0111

**General Administration:** See the list in the Executive School Director's Office.

**Education/Faculty:** See list in the Director of Education's Office

**Network Administrator** -Matt Love

**IT Staff:** See the list in the Corporate Director of IT

**Cafeteria Manager** – Vincent Coppola

**Cafeteria Staff-** Please see Cafeteria manager

## **Maintenance:**

See the list in the Director of Maintenance's Office.

**Bristol, PA Program Tuition & Fees - Incidental Fees -Total Cost of Attendance**  
 Updated June 2024

## ***TUITION***

\*Non-Refundable Fee

<b>Program</b>	<b>Tuition</b>	<b>Enrollment Fee*</b>	<b>Technology Fee</b>	<b>Books***</b>	<b>Tools***</b>	<b>Laptop</b>	<b>Total Program Charge**</b>
Automotive Technology AST 75 Semester Credit Horus (1800 hrs)	\$29,095	\$100	\$150	\$310	\$1,200	-	\$30,855
Automotive Technology	\$23,000	\$100	\$150	\$290	\$1,200	-	\$24,740
Automotive Technology - Modified	\$22,000	\$100	\$150	\$290	\$1,200		\$23,640

Welding	\$18,500	\$100	\$150	\$310	\$700	-	\$19,760

\*\*Total charges include the tuition, books, supplies, and uniforms. Total charges for a period of attendance and schedule of total charges for the entire educational program.

\*\*\*While Pennco Tech offers these resources at below general market prices, these prices are subject to change based on market conditions beyond the control of Pennco. There may be certain situations when you may be able to purchase some of these items elsewhere from outside sources at a reduced cost. Students have the right to opt out of purchasing certain items from Pennco Tech as long as they are able to obtain these resources prior to course start. A student's account will not be charged for any item the student chooses to purchase on their own. A list of books and supplies associated with your program of study can be found on the Pennco Tech website ([www.concorde.edu](http://www.concorde.edu)). A hard copy can be obtained from the campus upon request.

Incidental Charge	Fee	Description
Re-entry Fee	\$25	This non-refundable fee is charged to students who withdraw or are withdrawn from their program of study and Return/Re-enter
Transcript Fee	\$10	This non-refundable fee is charged when students request an official transcript
Dormitory Fee	\$400 per month	This fee is charged pro-rata each month to students who are using the on-campus housing in Pennco Tech's dormitory. The first and last payments are adjusted based on the student's move-in and move-out dates.
Dormitory Security Deposit	\$400	This one-time fee is charged to all dormitory students and is refunded at the student's departure so long as the conditions from the student's dormitory agreement are met.

**Note: The costs of this table represent the costs as of publishing date/version listed. The school revises the table above quarterly on Jan 01, April 01, July 01 and Oct 01 . Pennco Tech reserves the right to change the above costs.**

### INCIDENTAL FEES

All incidental fees are the responsibility of the student and must be paid prior to receiving any item.

### COST OF ATTENDANCE

Your cost of attendance (COA) is an ESTIMATE of the expenses you may encounter while attending Pennco Tech. **Your COA includes direct expenses such as tuition and fees, books, course materials supplies, and equipment, and indirect expenses such as living expenses, transportation and other miscellaneous personal expenses associated with your education. Tuition and direct expenses vary by program and are listed above.**

**The indirect expenses below are based off a 7-month/26-week academic year and may be prorated when academic years are shorter or longer.** The living expenses components are compiled using the annual numbers published by the College Board - <https://highereducation.collegeboard.org/financial-aid/policies-research/budgets/9-month>

Indirect expenses reflect an average cost of the components that fall within the category. For additional cost of attendance budgets, by program please contact the Financial Aid office.

Indirect Expenses	Off Campus	With Parent	On Campus
			6,293.00
Living Expenses (Food & Housing)	\$11,641.00	\$7,798.00	
Miscellaneous	\$7,539.00	\$7,539.00	\$7,539.00
Transportation	\$2,373	\$2,373	\$ -
Total	\$21,553	\$17,710	13,832

Day Hours: Monday – Friday 7:30 am - 3:00 pm (Occasionally Friday until 2 pm)

Evening Hours: Monday, Wednesday & Thursday 6:00 pm – 10:00 pm

## ***Pennco Tech School Policy on the Possession of Weapons***

### **Purpose:**

The purpose of this policy is to ensure a safe and secure environment for all students, faculty, staff, and visitors by strictly prohibiting the possession of weapons on school property or during any school-sponsored activities.

---

### **Scope:**

This policy applies to all individuals on school property, including students, staff, faculty, visitors, contractors, and vendors, regardless of whether the individual has a valid permit to carry a concealed weapon. It also applies to all school-sponsored events, whether on or off-campus.

---

### **Definitions:**

- Weapons: For the purposes of this policy, "weapons" include but are not limited to:
  - Firearms (e.g., handguns, rifles, shotguns, stun guns, air rifles, pellet guns, as well as replicas of any such articles etc.)
  - Knives with blades longer than 3 inches as well as replicas of any such articles
  - Explosive devices (e.g., bombs, fireworks, gunpowder, explosives, ammunition, or other material containing flammable substances, as well as replicas of any such articles or substances
  - Tasers, stun guns, or other electric shock devices, as well as replicas of any such articles
  - Any object that can be used to inflict serious harm or injury (e.g., brass knuckles, clubs, bats, etc.), as well as replicas of any such articles
  - School Property: Any building, parking lot, school vehicle, or land owned, leased, or controlled by the school.
-

**Policy:****Prohibition of Weapons:**

The possession, use, or distribution of weapons is strictly prohibited on school property and at school-sponsored activities, regardless of whether an individual has a permit to carry a concealed weapon.

---

**Exceptions:**

The only exceptions to this policy include:

Authorized law enforcement officers performing their official duties.

Items approved for use in specific educational activities (e.g., culinary knives in cooking classes, tools in shop classes), with prior written approval from the school administration.

---

**Consequences for Violation:**

Violations of this policy will result in disciplinary action, which may include:

For Students: Expulsion, and referral to law enforcement agencies if applicable.

For Employees: Disciplinary action up to and including termination of employment and referral to law enforcement agencies.

For Visitors or Vendors: Immediate removal from school property and possible ban from future entry, along with referral to law enforcement agencies.

---

**Reporting Violations:**

All students, staff, and visitors are responsible for reporting any violations or suspicious activity related to the possession of weapons. Reports can be made anonymously if necessary.

---

**Search and Seizure:**

The school reserves the right to search any individual's personal property (including bags, lockers, vehicles, etc.) if there is reasonable suspicion that a weapon is present on school grounds.

---

**Legal and Policy References:**

This policy is in accordance with local, state, and federal laws regulating weapons on school grounds. The school reserves the right to amend this policy to ensure ongoing compliance with legal standards.

---

**Enforcement and Review:**

The school administration will review this policy annually and ensure it is communicated to all students, staff, and faculty. Violation of this policy will be handled in accordance with the school's code of conduct and disciplinary procedures.

---

**Contact Information:**

For any questions regarding this policy or to report a violation, please contact the school administration at 215-785-0111

---
